

SUISEKI COLLECTION
design | Robert Marinelli

RM ROBERT MARINELLI

A prolific American Designer with multidisciplinary studios in New York and Los Angeles, Marinelli's work combines contemporary minimalism with materials and finishes that juxtapose and highlight his disparate artistic inspirations.

Inspired by traditional Japanese culture, *suseki* (水石) are small naturally occurring stones which are appreciated for their beauty and power to evoke a natural scene or object. The art of *suseki* involves the collection process, preparation of the stone which often represent mountains, waterfalls and other natural scenes.

Each piece in the *Suseki* collection possesses a distinctive personality, reflecting the evocative inspiration and an evolutionary shift towards more organic forms.
